

1) Cut out the square on the page above. It should look like this:

2) Fold along both of the diagonal lines:

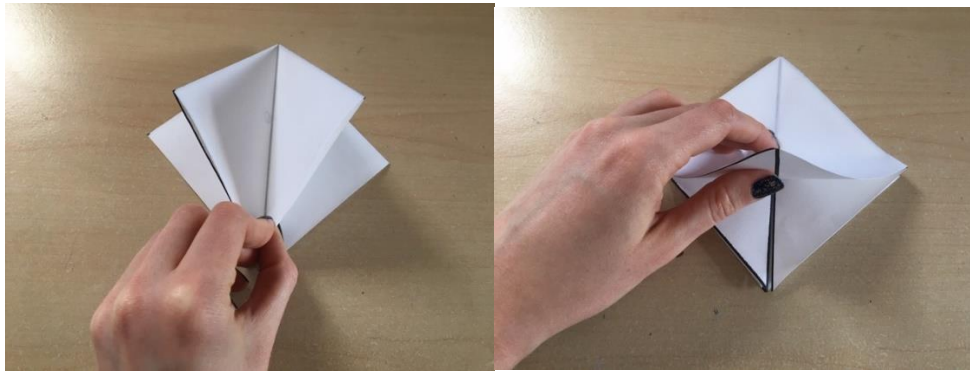

3) Fold along the vertical and horizontal lines:

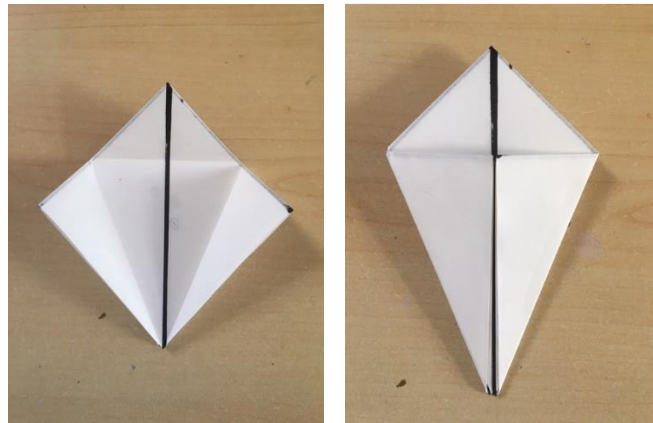

4) Bring the lines labelled 1, 2, 3 & 4 into the middle to create a smaller square:

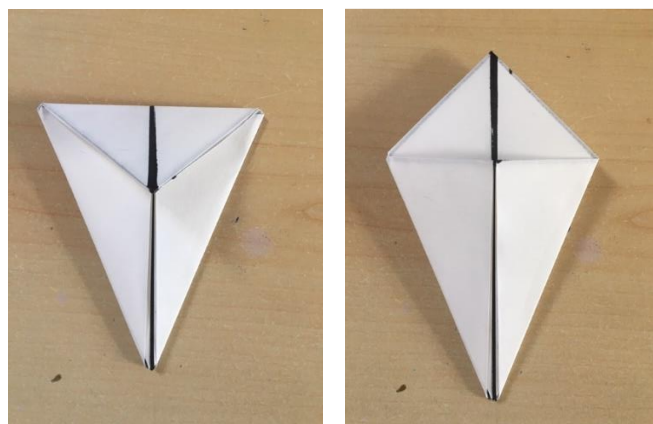

You should be able to lift the two sides of your square and have the corner with the flaps facing you:

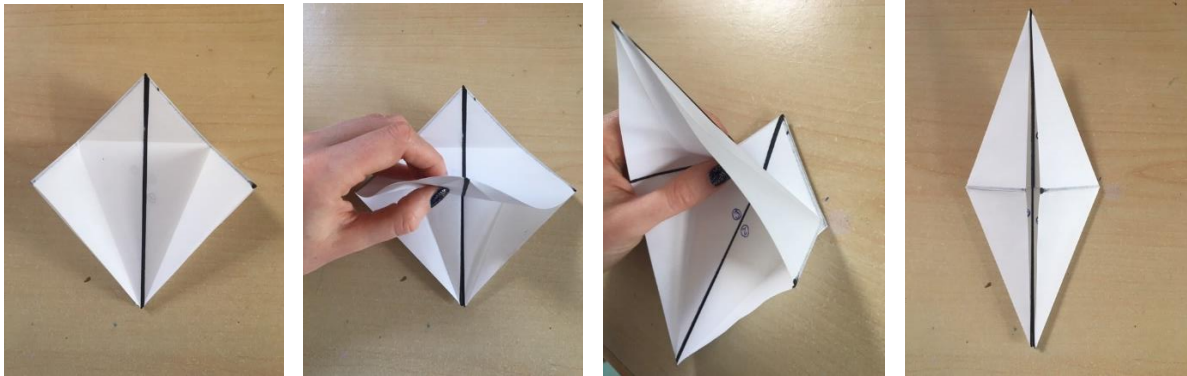

5) Fold the left and right corners into the middle. Then turn over your square and do the same:

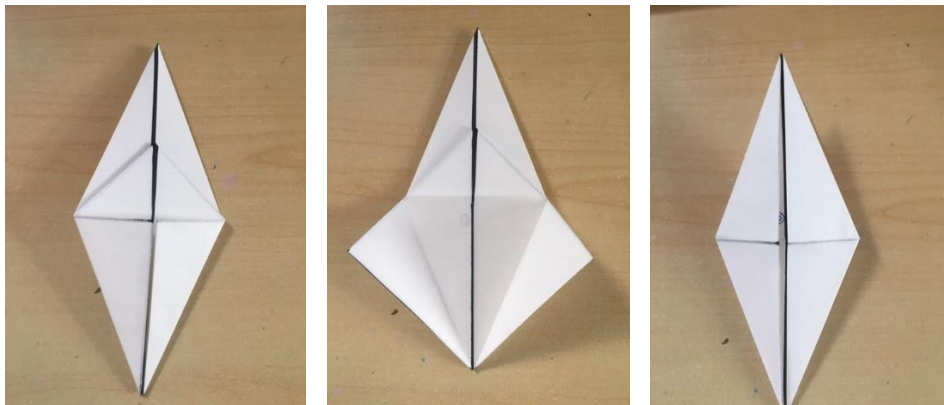

6) Fold the top corner down, over the fold you have just created and open it back up:

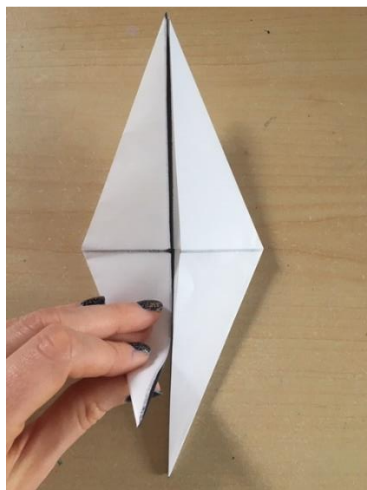

7) Open up the fold you have created on one side and pull it up so that you create a boat like shape. Push this down into a diamond:

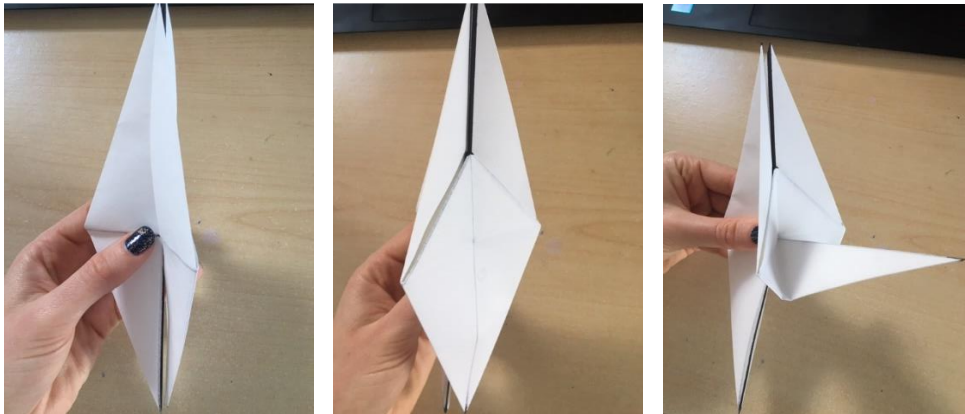

8) Turn over your diamond and do the same on the other side:

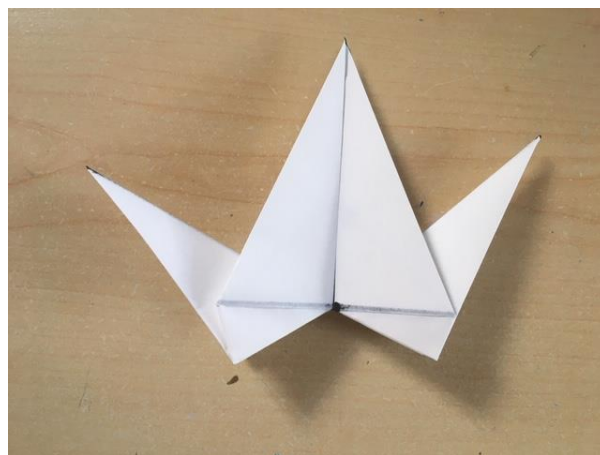

Your diamond should have two flaps at the bottom, facing you:

9) Open up one side (left or right) and fold up the bottom flap into a point facing upwards:

Do the same to both sides so that it looks like this:

10) Lastly, to create the bird's head, fold down the corner of one of the upwards points you have just created... Tah dah!
